

Rationale

Atam Primary School recognises that all pupils regardless of their background should have equal access to a curriculum which will enable them to reach their potential. The sports funding premium is a Government initiative that targets extra money to all pupils and all schools.

The Government are not dictating how schools should spend this money, but are clear that schools will need to employ the strategies that they know will support these pupils to increase their active participation in sports.

Schools must spend the additional funding on improving their provision of PE and sport, but they will have the freedom to choose how they do this.

Possible uses for the funding might include:

- hiring specialist PE teachers or qualified sports coaches to work with primary teachers when teaching PE
- paying for professional development opportunities for teachers in PE and sport
- providing cover to release primary teachers for professional development in PE and sport
- running sport competitions, or increasing pupils' participation in the School Games
- buying quality assured professional development modules or materials for PE and sport
- providing places for pupils on after school sports clubs and holiday clubs
- pooling the additional funding with that of other local schools

Evaluation of spending in 2017/2018

Atam Primary School – Sports Funding Premium

This year the school sports funding has been predominantly spent on ensuring specialist training and provision in order to increase participation in inter and intra school competitions.

All pupils in all year groups have enjoyed a wealth of training in a range of sports and are more aware of the importance of healthy living.

Governors have monitored the spending of the sports premium funding and its value for money. They have held the school to account where training of teachers to teach PE properly is concerned as well as ensuring that all pupils experience a range of sports.
