

I would like to introduce myself as The Chair of the Local Advisory Board (LAB) for Khalsa Secondary Academy (KSA) and express my vision for our school and future generations.

My link with KSA started as a parent in 2013 but not knowing any other parents I soon joined the PTA to build friendships and support my child's school. My background has been working in a Primary school supporting children with SEND thus my passion for education soon led me to applying for a Parent Governor position and soon moving to Vice Chair of Governors. I took over as the Acting Chair in December 2019 and was extremely honoured to be sworn in as Chair of the LAB in April 2020.

I would like to extend a warm welcome to those of you visiting our website. I look forward to working with staff, pupils and parents as we focus on educational excellence, character development and selfless service to the wider community and all with our leadership specialism. Teamwork, Ambition and Respect, offer pupils the opportunity to accomplish whatever they set their minds to and make a positive and lasting contribution to their communities. I am incredibly grateful to my fellow Governors for voluntarily devoting so much of their time and effort to helping the academy on its improvement journey.

We work in close collaboration with Khalsa Academies Trust and the KSA Headteacher and Senior Leadership Team, continually reviewing and refining the quality of our provision to ensure that the academy has effective strategic and operational systems in place. We also ensure that the staff – through training opportunities and continuous professional development – are fully equipped to provide an outstanding quality of education to pupils and deliver on our vision to nurture today's young people and inspire tomorrow's leaders. Also working alongside parents who share our passion to create a bright and promising future for our pupils, we will surely succeed in our ambitions.

I will endeavour to make KSA an outstanding school in all areas and where every child leaves with strong Sikh and British values and are truly happy and confident individuals ready for the world of today.

With my Best Wishes

Mrs Anita Singh
Chair of KSA LAB
